

New aircheck!

Completed another aircheck earlier this morning. This one from May 16 & 17 of 1997. On-Air Djs included Chris King and Malibu Sue showcasing a rather ordinary time in post 90s musical WLIR history.

In fact, at this time in the station's history the slogan used to market the sound was "New Wave and New Rock!"

### **What else is on this unscoped aircheck...**

For a complete listing of the contents of this aircheck, click "research" above and select the 1997-0516 Aircheck from the official 92.7 aircheck registry i have put together. As I manage to get more of the archived tapes transferred I will be posting their content on this site.

If you are interested in setting up a trade use the discussion board on contact form to reach me. At this point, I should say that I am only interested in trading airchecks and will not sell them under any circumstances.
